#### **About Camellia:**

Camellia Plc is the ultimate holding company of a group of agricultural businesses incorporated in jurisdictions across the world (the ‘Operating Companies’), while also owning and operating other assets outside of agriculture.

Camellia's purpose is to grow and nurture agricultural businesses and assets of the highest quality - creating value for today's shareholders, while investing for the long term. Camellia's Operating Companies are committed to working fairly, sustainably and with integrity for the wellbeing of their employees, communities, and the natural environment.

The Operating Companies collectively own and manage circa 50,000 hectares of mature land across seven countries (Bangladesh, Brazil, India, Kenya, Malawi, South Africa, and Tanzania).

The majority of the Group's revenue is derived from the growing of tea, avocado, macadamia, rubber, wine grapes, blueberries, arable crops, forestry and livestock. The Operating Companies have well-established and industrial-scale operations, with reputations for high-quality products.
